

BA970X

VSM CBN

Grain type	Cubic boron nitride
Bonding	Galvanic
Colour	Blue
Backing	Aramide fiber
Flexibility	Sturdy
Production width	300 mm

Materials

Features

CBN abrasives partially coated suitable for machining extremely hard metallic materials. BA970X is characterised by a very long service life, high stock removal, a consistent surface quality and high temperature resistance.

Grit sizes:¹⁾

Benefits

- > Very long service life
- > Consistent surface quality
- > Suitable for dry and wet grinding
- > High stock removal
- > Good temperature resistance
- > BA970X is suitable for machining hardened steels >54 HRC, high-Speed steels (HSS), tool steels, chromium steels, ball bearing steels, case-hardened steels and chill casting...
